Profile

Hello, I am Karen Gomes, a Software Developer, Master's student in Computer Science at UFMG, and Computer Science graduate from the Federal University of Alagoas (UFAL). I have been working with HTML5, CSS3, and Vanilla JS since 2017, and developing systems using ReactJS since 2018. Additionally, for about 3 years, I have been developing personal and professional projects using NodeJS, Python, and WordPress (PHP). I also have professional experience with Low-Code platforms Liferay and Mendix. I consider myself very open to experimenting and learning new technologies, always trying my best to adapt to what is best for the project I am working on.

Professional Experience

- Jul 2023 – Present **Computer Science Resident, Orion, Maceió - AL**
Software Developer at the Orion Laboratory Residency Program. Front End Coordinator for projects of the Alagoas State Secretariats (such as SETUR and Governance) utilizing technologies: ReactJS, Hooks, Redux, NextJS, TypeScript, JavaScript, NodeJS, and Python.
- Apr 2023 – Nov 2025 **Mid-Level Software Developer, Opikode, Rio de Janeiro - RJ**
Was part of the Front End team utilizing Liferay technology in SENAI CETIQT systems, such as Inova Moda Digital and Bioeconomia.
- Sep 2021 – Feb 2023 **Mid-Level Software Developer, Suno Research, São Paulo - SP**
Worked for a year and a half as a Full Stack Developer, focusing more on Front End. Until Jul/2022, I performed tasks in projects using NodeJS on the Back End, and later worked on projects using WordPress/PHP/Gutenberg and its ecosystem on both Front End and Back End.
- Feb 2021 – Sep 2021 **Software Developer, WeDevUp, São Paulo - SP**
Worked as a Full Stack Developer, focusing more on Front End. WeDevUp is a software house where I performed tasks in projects using NodeJS on the Back End, but most of the time focused on parts utilizing ReactJS. I worked on several different projects, all with ReactJS; one was for Ford, creating a landing page to publicize a car launch, and another was a clothing marketplace. I also worked at Barraca Livre, a company similar to Airbnb but for camping.
- Jul 2020 – Feb 2021 **Junior Web Developer, Centro de Inovação EDGE, Maceió - AL**
Worked with Mendix (low-code), JavaScript (Vanilla), and Java to build an internal system for Siemens (BRA).
- Sep 2016 – Aug 2020 **Web Development Trainee, Audora Technology and Solutions, Maceió - AL**
Developed systems with ReactJS using Redux and Hooks, TypeScript, and Java. Worked with agile methodologies (Scrum and Kanban Board) and tools such as Gitlab, BitBucket, and Jira.
